VISAKHAPATNAM PORT TRUST
ENGINEERING DEPARTMENT

- 1.** NAME OF WORK: : Providing Mural painting on NALCO compound wall from ch.90 ch.185 in connection with the visit of MoST in port area-Reg...

SPECIAL CONDITIONS

1. All materials and workmanship shall conform to the appropriate Indian Standard Specifications, published by the Bureau of Indian Standards (BIS) latest versions as applicable, specifications given in the Schedule "B" (schedule of quantities and rates) of the contract and special conditions. Standards issued elsewhere may be used if approved by the Engineer-in-charge for those items of work only for which appropriate Indian Standards do not exist. Necessary testing charges, if any, shall be borne by the contractor.
2. The Contractor is responsible for taking precautionary measures for the safety of the lives of the mazdoors working under him and the responsibility arising due to any mishap during the execution of work, the payment of any compensation etc. lies entirely on the part of the Contractor.
3. The notice inviting Tenders and General Conditions etc., shall form part of contract.
4. All the rules and regulations governing the Visakhapatnam Port Trust shall be applicable.
5. Any damages caused to Port property either directly or indirectly shall be made good by the Contractor at his own cost.
6. The decision of Engineer-in-charge is final in case of any technical clarification.
7. All defective works pointed out by the Engineer-in-charge shall be rectified by the contractor at his cost.
8. The percentage excess / less over total schedule amount shall be required to be typed at the end of the schedule- 'B' by the contractor.
9. No sales tax will be paid on account of the work.
10. The work should be completed within **7 days** from the date of work order.
11. It is the responsibility of the Contractor to see that the job entrusted is done expeditiously with safety and in time. Time is the essence of the contract.
12. The VPT reserves the right to withdraw any item of Tender or to cancel the subject Tender without assigning any reason.
13. Statutory deductions will be made from the bills.
14. Payment will be made according to the actual quantities of work ordered and carried out as measured by the Engineer-in-Charge. The rate entered in the contract shall be valid for any extent of variation of quantity of each individual item subject to total contract value does not get altered by more than 30%.
15. Any additional work required, should be carried out with the prior approval of CE / VPT or his authorized representative and will be paid extra as per mutually agreed up on.

CONTRACTOR

16. The Standard VPT conditions, which are not mentioned, are also applicable to this work.
17. The Contractor has to follow the norms of IMS as the VPT is adhering to Quality management system (ISO 9001-2008), Environmental management system (ISO 14001-2004) and Occupational health & safety assessment series (OHSAS 18001-2007) for their activities.
18. According to GST Act every dealer is liable to be registered whose aggregate turn over exceeds Rs:20 lakhs for supply of goods /services /executing any work contract. Accordingly GSTIN is to be provided for participation in tender and to award the contract.
19. The contractor / Firms while quoting Tender shall note that, no post Tender negotiation will be held with the L-1 Tenderers, except in exceptional cases, whenever it is found necessary.
20. If any forged / fake documents are submitted by the Tenderers, the management reserves the right to forfeit the EMD/SD besides their business dealings with VPT will be banned.
21. No claim will be entertained for fluctuation in market rate of any labour, materials on transportation etc., during the period of contract.
22. No escalation clause will be entertained at any stage of the contract.
23. METHOD OF MEASUREMENT:
Standard Method: Unless stated or billed otherwise, quantities shall be measured in accordance with the Indian Standard code of practice for Measurement of Civil Engineering works I.S. 1200. The rates entered in the contract shall include whatever allowance is considered by the contractor to be necessary for waste, working area, construction slopes, batters etc.
24. The Tenderers are expected to carefully inspect the site of work and study the site conditions before Tendering for this work and no claim whatsoever will be entertained at a future date arising out of local working conditions and clarifications given by the department.
25. The Contractor shall abide by all statutory regulations, labour rules, insurance, safety codes, P.F. contribution, Minimum wages act in force and as applicable during execution of the contract and obtaining clearance from Visakhapatnam Port Trust and relevant authorities as and when required.
26. The Contractor should observe the prohibitory rules and regulations in force at the time of work and as revised from time to time and cause no obstructions or hindrance to the department work.
27. The 2% value of the Tender amount should be paid towards EMD along with submission of Tender. The EMD of 2% will form part of the total security deposit of 10% and only the balance of 8% will be recovered from the running on account bills at the rate of 10% until the balance of 8% is recovered. The Security deposit will be refunded only after satisfactory completion of the work.
28. The contractor shall employ a supervisor as necessary in execution of works as per requirement and as per instructions of Engineer-in-charge..

CONTRACTOR

29. Opening of the Tender on - 08-2018 after 14.00 hours.

30 The Port working hours are from 08.30 AM to 1.00PM and from 02.00 PM to 5.30PM.

31 Any work requiring supervision carried out by the contractor beyond working hours and holidays, the contractor shall apply in writing in advance of such work to arrange supervision.

32 Preparation of surface for white / colour wash: Before new work is white / colour washed, the surface shall be thoroughly brushed free from mortar droppings and foreign matter and shall be wetted. In case of old work, all loose pieces and scales shall be scraped off and holes in plaster as well as patches of less than 50 cm² area shall be filled up with mortar of the same mix. The surface shall then be wetted before the application of the white / colour wash. The rates quoted shall be inclusive of the same.

33. CEMENT PRIMING COAT :

The cement primer is composed of a medium and pigment, which are resistant to the alkalies present in the cement, lime or lime cement in wall finish and provides a barrier for the protection of subsequent coats or oil emulsion distemper paints.

Preparation of surface :

The surface shall be thoroughly cleaned of dust, old white or colour wash by washing and scrubbing. The surface shall then be allowed to dry for at least 48 hours. It shall then be sand papered to give a smooth and even surface. Any unevenness shall be made good by applying putty, made of plaster of Paris mixed with water on the entire surface including filling up the undulations and then sand papering the same after it is dry.

Application :

The cement primer shall be applied with a brush on the clean, dry and smooth surface. Horizontal strokes will be given first and vertical strokes shall be applied immediately afterwards. The surface shall be finished as uniformly as possible leaving no brush marks.

34. DISTEMPER :

Materials: Oil bound distemper of approved brand and manufacture shall be used. The distemper shall be diluted with water or any other prescribed thinner in a manner recommended by the manufacturer. Only sufficient quantity of distemper required for days work shall be preferred. The distemper shall be brought by the contractor in sealed tins and empty tins shall not be removed from site of work till the item of work has been completed and passed by the Engineer-in-charge.

CONTRACTOR

For new work the surface shall be thoroughly cleaned of dust, old white or colour wash by washing and scrubbing. The surface shall then be allowed to dry for at least 48 hours. It shall then be sand papered to give a smooth and even surface. Any unevenness shall be made good by applying putty, made of plaster of Paris mixed with water on the entire surface including filling up the undulations and then sand papering the same after it is dry.

In case of old work, all loose pieces and scales shall be removed by sand papering. The surface shall be cleaned of all grease, dirt etc. pitting (paint and lacquer) in plaster shall be made good with plaster of Paris mixed with the colour to be used. The surface shall then be down again with a fine grade sand paper and made smooth. A coat of distemper shall be applied over the patches. The patched surface shall be allowed to dry thoroughly before the regular coat of distemper is applied.

Application:

For new work, after the primer coat has dried for at least 48 hours, the surface shall be lightly sand papered, taking care not to rub out the priming coat. All loose particles shall be dusted off after rubbing. One coat of distemper shall be applied with brushes in horizontal strokes followed immediately by vertical ones which together constitute one coat. The subsequent coats shall be applied in the same way. A time interval of at least 24 hours shall be allowed between consecutive coats.

For old work, the distemper shall be applied over the prepared surface after sand papered the surface. All loose particles shall be dusted off after rubbing. One coat of distemper shall be applied with brushes in horizontal strokes followed immediately by vertical ones, which together constitute one coat. The subsequent coats shall be applied in the same way. A time interval of at least 24 hours shall be allowed between consecutive coats.

35. Weather Coat Paint:

The Weather coat paint shall be (conforming to relevant I.S) of approved brand and manufacture

.Preparation of surface:

For new work, the surface shall be thoroughly cleaned of all mortar droppings, dirt, dust, algae, grease and other foreign matter by brushing and washing. The surface shall be thoroughly wetted with clean water before the Weather coat paint is applied.

CONTRACTOR

In case of old work, all loose pieces and scales shall be removed and the surface shall be cleaned off all dirt, dust, algae, oil etc. by brushing and washing. Pitting in plaster shall be made good and a coat of Weather coat paint shall be applied over patches after wetting them thoroughly.

Application:

The solution shall be applied on the clean and wetted surface with brushes. The solution shall be kept well stirred during the period of application. It shall be applied on the surface, which is on the shady side of the building, so that the direct heat of the sun on the surface is avoided. The completed surface shall be watered after the days work.

The second coat shall be applied after the first coat has been set for at least 24 hours. Before application of the second or subsequent coats, the surface of the previous coat shall not be wetted.

36. Cement Paint :

The cement paint shall be (conforming to I.S: 5410 – 1969) of approved brand and manufacture.

Preparation of surface:

For new work, the surface shall be thoroughly cleaned of all mortar droppings, dirt, dust, algae, grease and other foreign matter by brushing and washing. The surface shall be thoroughly wetted with clean water before the cement paint is applied.

In case of old work, all loose pieces and scales shall be removed and the surface shall be cleaned off all dirt, dust, algae, oil etc. by brushing and washing. Pitting in plaster shall be made good and a coat of water proof cement paint shall be applied over patches after wetting them thoroughly.

Application:

The solution shall be applied on the clean and wetted surface with brushes. The solution shall be kept well stirred during the period of application. It shall be applied on the surface, which is on the shady side of the building, so that the direct heat of the sun on the surface is avoided. The completed surface shall be watered after the days work.

The second coat shall be applied after the first coat has been set for at least 24 hours. Before application of the second or subsequent coats, the surface of the previous coat shall not be wetted.

Contractor

37. PRIMING COAT :

Preparation of Surface :

Wood work : The wood work to be painted shall be dry and free from moisture. The surface shall be thoroughly cleaned. All unevenness shall be rubbed down smooth with sand paper and shall be well dusted knots if any shall be covered with preparation of red lead made by grinding red lead in water and mixing with strong glue sized and used hot. Appropriate filler material same shade as paint shall be used where specified.

The surface treated for knotting shall be dry before painting is applied. After the priming coat is applied, the holes and indentation on the surface shall be stopped with glazier's putty or wood putty.

Iron and Steel surface:

All rust and scales shall be removed by scraping or by brushing with steel wire brushes. All dust and dirt shall be thoroughly wiped away from the surface. If the surface is wet, it shall be dried before priming coat is undertaken.

Application:

The painting shall be applied with brushes, worked well into the surface and spread even and smooth. The painting shall be laid on evenly and smoothly by means of crossing and laying off, the latter in the direction of the grain of wood. The crossing and laying off consists of covering the area over with paint, brushing the surface hard for the first time over and then brushing alternately in opposite direction, two or three times and then finally brushing lightly in a direction at right angles to the same. In this process no brush marks shall be left after the laying off is finished. The full process of cleaning and laying off will constitute one coat.

In painting doors and windows, the putty round the glass panes must also be painted; but care must be taken to see that no paint stains etc., are left on the glass. Tops of shutters and surfaces in similar hidden locations shall not be left out in painting.

In painting steel work, special care shall be taken while painting over bolts, nuts, rivets, overlaps etc.

38. **Synthetic enamel paint on New surface:**

Preparation of surface:

Wood work: The surface shall be cleaned and all unevenness shall be rubbed down smooth with sand paper and shall be well dusted. Knots if visible shall be covered with a preparation of red lead. Holes and indentations on the surface shall be filled in with glaziers putty or wood putty and rubbed smooth before painting is done. The surface should be thoroughly dry before painting.

Iron and steel work: The priming coat shall have dried up completely before painting is started rust and scaling shall be carefully removed by scraping or by brushing with steel wire brushed. All dust and dirt shall be carefully and thoroughly wiped away.

Application:

The painting shall be applied with brushes, worked well into the surface and spread even and smooth. The painting shall be laid on evenly and smoothly by means of crossing and laying off, the latter in the direction of the grain of wood. The crossing and laying off consists of covering the area over with paint, brushing the surface hard for the first time over and then brushing alternately in opposite direction, two or three times and then finally brushing lightly in a direction at right angles to the same. In this process no brush marks shall be left after the laying off is finished. The full process of cleaning and laying off will constitute one coat.

In painting doors and windows, the putty round the glass panes must also be painted; but care must be taken to see that no paint stains etc., are left on the glass. Tops of shutters and surfaces in similar hidden locations shall not be left out in painting.

In painting steel work, special care shall be taken while painting over bolts, nuts, rivets, overlaps etc.

39. The contractor shall maintain register showing the receipt, consumption and ground balance of the paints used in the relevant items of work daily and obtain the signatures of the department's authorised representative in token of the paint after use in the work to be kept at the site stores of the contractor till the department permits to take away the containers by the contractor on written request after completion of the work.
40. Shop painting: The steelwork shall be thoroughly cleaned to remove all rust, loose mill scales, dirt and other foreign materials. Greasy and oily surfaces shall be cleaned with solvent and dry rags. Unless otherwise specified the contractor shall not flame clean or pickle the steelwork prior to painting.
41. Site painting: After erection, the whole of the steelwork shall be thoroughly cleaned and all dirt marks, grease and over spills of primer paint are removed. Areas where the shop coat has suffered damage or deterioration shall be cut back and repainted with primer in the same manner as in the shop. All exposed surfaces of metal bolt heads and connections left unpainted in the shop shall be similarly treated. After this preliminary work of making good has been approved by the E.I.C, all surfaces shall thoroughly washed down with fresh water and when dry, finishing coats of paint shall be applied as per the specification.

CONTRACTOR

- 42) All the eligible bidders, who are registered with NSIC/ Ministry of MSME are exempted from payment of EMD amount and Tender Document Cost subject to fulfilling of following conditions.
- i) The Bidder should invariably submit a request letter claiming “EMD and Tender Document Cost exemption”.
 - ii) . The Bidder has to submit the self-certified copy of the Registration Certificate issued by NSIC/Ministry of MSME for the works/ services relevant to the “Subject Tender as per Pre-qualification criteria”.
 - iii.) The above Registration Certificate should be valid on the date of opening of the technical bid.
 - iii) . The Monetary limit of the Registration certificate shall be more than the “Amount put to Tender”. In case the monetary limit of the above Registration Certificate is less than the estimated cost (put to tender), then the above certificate will be treated as invalid for the subject Tender Value.
 - iv) . In case the Registration Certificate issued by NSIC/ Ministry of MSME is found to be invalid (date expired) or insufficient monetary limit or irrelevant works or services i.e., other than the tendered works/ services, then the above Registration certificate cannot be considered for exemption of EMD & Tender Document cost and the Bid received with treated as “Bid submitted without EMD and Tender Document Cost”, which would attract disqualification under EMD & Tender Document Cost of Tender conditions as mentioned above.
 - vi) In case the bid is submitted as an Indian arm of a Foreign Bidder and the eligibility criteria conditions were met thru foreign company, then the “EMD Exemption & Tender Document Cost cannot be claimed under the MSME status of Indian arm/ Subsidiary.
 - vii) Copy of “Application for obtaining NSIC/MSME Registration” of pending renewal of NISC will not be entertained. Such offers will be treated as Offers received without EMD and Tender Document Cost.
- 43) The bidder will have to give a certificate that their firm or company is not having any relationship (direct / indirect) either personal or commercial with any of existing trustees of VPT.
- 44) Regular inspection of the site by the contractor / technical engineer / supervisor is Required so as to plan execution of the work. Accordingly the contractor has to quote the percentage excess / less over the amount put tender.
- 45) If required, the construction agencies / Firms would provide Crèche at their camp offices / Labour work sites.
- 46) The work site is located at main road junction through which heavy vehicular traffic is situated every day. Proper diversion of vehicle traffic shall be attended by the contractor at no extra cost to the department before attending the work, proper cautionary boards, with glow sign boards and safety ribbon should be provided before commencing daily works.
- 47) GST in respect supply of goods & services or on works contract as applicable in respect of this contract should be payable by the supplier / service provider / Contractor and port trust will not entertain any claims with effect from 01.07.2017.

CONTRACTOR
