SUPDT ENGINEER (West)

VISAKHAPATNAM PORT AUTHORITY
CIVIL ENGINEERING DEPARTMENT

NAME OF WORK: :- Providing a water tankers filling point arrangement at PCR Pump house, Visakhapatnam Port Trust.

SPECIAL CONDITIONS

1. All materials and workmanship shall conform to the appropriate Indian Standard Specifications, published by the Bureau of Indian Standards (BIS) latest versions as applicable, specifications given in the Schedule "B" (schedule of quantities and rates) of the contract and special conditions. Standards issued elsewhere may be used if approved by the Engineer-in-charge for those items of work only for which appropriate Indian Standards do not exist. Necessary testing charges, if any, shall be borne by the contractor.
2. The Contractor is responsible for taking precautionary measures for the safety of the lives of the mazdoors working under him and the responsibility arising due to any mishap during the execution of work, the payment of any compensation etc. lies entirely on the part of the Contractor.
3. The notice inviting Tenders and General Conditions etc., shall form part of contract.
4. All the rules and regulations governing the Visakhapatnam Port Trust shall be applicable.
5. Any damages caused to Port property either directly or indirectly shall be made good by the Contractor at his own cost.
6. The decision of Engineer-in-charge is final in case of any technical clarification.
7. All defective works pointed out by the Engineer-in-charge shall be rectified by the contractor at his cost.
8. The percentage excess / less over total schedule amount shall be required to be typed at the end of the schedule- 'B' by the contractor.
9. No sales tax will be paid on account of the work.
10. The work should be completed within **7 days** from the date of issue work order.
11. It is the responsibility of the Contractor to see that the job entrusted is done expeditiously with safety and in time. A penalty of 1/2 % will be levied for every week of delay subject to maximum of 10% on the total value of the contract. In this connection, the decision of Chief Engineer is final. Time is the essence of the contract.
12. The VPT reserves the right to withdraw any item of Tender or to cancel the subject Tender without assigning any reason.
13. Statutory deductions will be made from the bills.
14. Payment will be made according to the actual quantities of work ordered and carried out as measured by the Engineer-in-Charge. The rate entered in the contract shall be valid for any extent of variation of quantity of each individual item subject to total contract value does not get altered by more than 30%.
15. Any additional work required, should be carried out with the prior approval of CE / VPT or his authorized representative and will be paid extra as per mutually agreed up on.
16. The Standard VPT conditions, which are not mentioned, are also applicable to this work.
17. The Contractor has to follow the norms of IMS as the VPT is adhering to Quality management system (ISO 9001-2014), Environmental management system (ISO 14001-2014) and Occupational health & safety assessment series (OHSAS 18001-2007) for their activities.
18. The rates quoted in the schedule-B are excluding GST, GST will be paid as per norms.
19. The contractor / Firms while quoting Tender shall note that, no post Tender negotiation will be held with the L-1 Tenderers, except in exceptional cases, whenever it is found necessary.

CONTRACTOR

20. If any forged / fake documents are submitted by the Tenderers, the management reserves the right to forfeit the EMD/SD besides their business dealings with VPT will be banned.
21. No claim will be entertained for fluctuation in market rate of any labour, materials on transportation etc., during the period of contract.
22. No escalation clause will be entertained at any stage of the contract.
23. The contractor has to procure the structural steel such as MS angles, MS plates, MS flats, MS Pipes etc., mentioned in Schedule 'B' and transport the same to site of work at his own cost and necessary test certificates are to be produced by the contractor.
24. The contractor shall ensure availability of appropriate personal protection equipment such as safety helmets, safety shoes, gloves, life saving equipment nose guard, ear plugs, safety harness, goggles to their employees /works etc and ensure PPEs by their employees/workers etc., while carrying out the works
25. **METHOD OF MEASUREMENT:**
Standard Method: Unless stated or billed otherwise, quantities shall be measured in accordance with the Indian Standard code of practice for Measurement of Civil Engineering works I.S. 1200. The rates entered in the contract shall include whatever allowance is considered by the contractor to be necessary for waste, working area, construction slopes, batters etc.
26. The payment of transportation of Earth / Debris will be made on stack measurements after deducting 20% for voids. The Contractor has to make stacks at his own cost at the place of loading and spread the debris / earth at the place of unloading to lines and levels as directed by the Engineer-in-Charge.
27. The useful materials obtained from the dismantled materials are to be handed over at Port General Stores or at the place shown as directed by the Engineer-in-charge at no extra cost to the department.
28. If the dismantled materials / debris etc., are not removed as per the instructions of the concerned officer/ their representative a penalty of Rs.100/- per day shall be levied.
29. The Tenderers are expected to carefully inspect the site of work and study the site conditions before Tendering for this work and no claim whatsoever will be entertained at a future date arising out of local working conditions and clarifications given by the department.
30. Before commencement of the earth excavation works the contractor shall obtain approval of the Engineer-in -charge for the alignment marked at site of work. Clearance shall also be obtained with regard to non-interference of optical fiber cables of information technology network and electrical cables of Mechanical and Electrical Engg. Dept.
31. The Contractor shall abide by all statutory regulations, labour rules, insurance, safety codes, P.F. contribution, Minimum wages act in force and as applicable during execution of the contract and obtaining clearance from Visakhapatnam Port Trust and relevant authorities as and when required.
32. The Contractor should observe the prohibitory rules and regulations in force at the time of work and as revised from time to time and cause no obstructions or hindrance to the department work.
33. Visakhapatnam Port Trust will not supply cement, steel and water.
34. The 2% value of the Tender amount should be paid towards EMD along with submission of Tender. The EMD of 2% will form part of the total security deposit of 10% and only the balance of 8% will be recovered from the running on account bills at the rate of 10% until the balance of 8% is recovered. The Security deposit will be refunded only after satisfactory completion of the work.

CONTRACTOR

35. The contractor or his authorized representative shall invariably sign in the hindrance register which shall be maintained by the concerned division at site of work whenever any hindrance takes place while execution and the same will be reviewed by the Engineer-in-Charge from time to time, to examine the justified reasons for considering extension of time etc.,
36. The contractor shall employ and post full time technical engineer/supervisor as necessary in execution of works as per requirement and as per instructions of Engineer-in-charge.
37. The Port working hours are from 08.30 AM to 1.00PM and from 02.00 PM to 5.30PM. Any work requiring supervision carried out by the contractor beyond working hours and holidays, the contractor shall apply in writing in advance of such work to arrange supervision.
38. GST in respect supply of goods & Services or on works contract as applicable in respect of this contract should be payable by the supplier/service provider/contractor and port trust will not entertain any claims with effect from 01-07-2017.
39. According to GST Act every dealer is liable to be registered whose aggregate turn over exceeds Rs.20.00 lakhs for supply of goods/services/executing any works contract. Accordingly GSTN is to be provided for participation in tender and to award the contract
40. The rate to be quoted should be exclusive of GST component and payment will be made against "Tax Invoice" as prescribed under the GST Act/Rules.
41. The supplier/Contractor is required to remit GST as per the "Tax Invoice and file the details in GSTR on or before 10th of the subsequent month to enable VPT to claim input tax credit , Otherwise the said tax invoice will be kept pending for payment.
42. All the eligible bidders, who are registered with NSIC/ Ministry of MSME are exempted from payment of EMD amount and Tender Document Cost subject to fulfilling of following conditions.
 - i. The Bidder should invariably submit a request letter claiming "EMD and Tender Document Cost exemption".
 - ii. The Bidder has to submit the self-certified copy of the Registration Certificate Issued by NSIC/Ministry of MSME for the works/ services relevant to the "Subject Tender as per Pre-qualification criteria".
 - iii. The above Registration Certificate should be valid on the date of opening of the Technical bid.
 - iv. The Monitory limit of the Registration certificate shall be more than the "Amount put to Tender". In case the monitory limit of the above Registration Certificate is less than the estimated cost (put to tender), then the above certificate will be treated as invalid for the subject Tender Value.
 - v. In case the Registration Certificate issued by NSIC/ Ministry of MSME is found to be Invalid (date expired) or insufficient monitory limit or irrelevant works or services ie., other than the tendered works/ services, then the above Registration certificate cannot be considered for exemption of EMD & Tender Document cost and the Bid received with treated as "Bid submitted without EMD and Tender Document Cost", which would attract disqualification under EMD & Tender Document Cost of Tender conditions as mentioned above.
 - vi) In case the bid is submitted as an Indian arm of a Foreign Bidder and the eligibility Criteria conditions were met thru foreign company, then the "EMD Exemption & Tender Document Cost cannot be claimed under the MSME status of Indian arm/ Subsidiary.
 - vii) Copy of "Application for obtaining NSIC/MSME Registration" of pending renewal of NISC will not be entertained. Such offers will be treated as Offers received without EMD and Tender Document Cost.

CONTRACTOR

43. As the location of work is in prohibited area the contractor shall obtain necessary RFID passes from the Commandant, CISF/VPT through the department for him self, his workers, materials, equipment, and vehicles etc., as per rules in force. In view of security requirements personnel/workers of the contractors shall possess photo identity cards for issue of passes. For this purpose, photo identity cards issued by the contractors are also valid. For the contractors/authorized personnel requiring such photo identity cards on a long-term basis, same will be issued by the Port, CISF as per rules in force. The necessary charges for RFID gate passes shall be borne by the contractor
44. Photographs has to be taken for each activity location wise and shall be submitted along with bills by the contractors at his own cost, failing in which bills will not be processed.
45. The contractor must own a cell phone for him and to provide cell phones to all of his Engineers/Supervisors easy communication from time to time.
46. The Water line should be tested to the required pressure as per relevant BIS after completion of laying. The contractor shall make all arrangements like blind flanging the pipeline connections, specials, and coupling. Only potable water shall be used for testing. The department from nearest available source will give required water if available. During testing if there is any leakage or sweating the contractor has to Re-DO the jointing and caulking including replacement of specials and broken parts of the pipeline at no extra cost to the department. The rates entered in the contract for relevant items of work shall be inclusive of the element for pressure testing.
47. The contractor is required to cut the pipe if required threading etc; wherever necessary to join the specials etc; no separate payment will be made for this.

48. D.I (Water, Gas and Sewage) Pipes

Centrifugally cast (Spun) Ductile Iron Pressure pipes and fittings shall conform to I.S 8329-2000 and IS 9523/2000 respectively. The pipes shall be stripped with all precautions necessary to avoid warping or shrinkage defects, detrimental to their good quality. The pipes shall be free from defects other than any avoidable surface imperfections and which do not affect the serviceability of the pipes. The pipes shall be free from defects other than any unavoidable surface imperfections and which do not affect the serviceability of the pipes. The pipes shall be such that they could be cut drilled and machined. Cutting of pipes may be necessary when pipes are to be laid in lengths shorter than the lengths supplied, such as while replacing accessories like Tees, bends etc at fixed portions in the pipelines.

1. The contractor has to submit manufacturers Test Certificate for the D.I Pipes, Valves and Specilas as per relevant I.S Standards as directed by the Engineer- In – Charge.

2. JOINTING:

In case of socket & spigot end pipes with rubber joints, the spigot ends shall be suitably chamfered for smooth entry of pipe in the socket fitted with rubber gasket. In case of lead joint pipes, the spigot may or may not have chamfered ends. In case of flanged pipes, the flanges shall be right angles to the axis of pipe and machine on face. The bolt shall be drilled .The bolt hole circle shall be concentric with bore, and the two flanges of the pipe shall be correctly aligned.

3. LOWERING:

All pipes, fittings, valves and hydrants shall be carefully lowered into the trench, piece by piece means of derrick, ropes or other suitable tools and equipment in such a manner as to prevent damage to pipes, materials and protective coatings and linings. Pipes over 300mm dia shall be handled and lowered into the trench with help of Chain pulley blocks.

CONTRACTOR

4. LAYING:

Every precaution shall be taken to prevent foreign material from entering the pipe while it is being placed in the line. If the pipes cannot be put into the trench and in place without getting the earth into it, a heavy tightly woven canvas bag of suitable size shall be placed over each end before lowering the pipe into the trench and left there until the connection is to be to the adjacent pipe. During laying operations, no debris, tools, clothing or any other materials shall be placed in the pipe. After placing the pipe in the trench the spigot end shall be centered in the socket and the pipe forced home and aligned to gradient. Precaution shall be taken to prevent dirt from entering the joint space. On level ground the socket ends should face the upgrade.

5. PRESSURE TEST:

The field test pressure to be imposed should be not less than the greatest of the following:

One and half times of the maximum sustained operating pressure.

One and half times of the maximum pipeline static pressure and Sum of the maximum static pressure and surge pressure subject to the works test pressure. Where the field pressure is less than $\frac{2}{3}$ (two thirds) the works test pressure the period of test should be increased to at least 24 hours. The test pressure shall be gradually raised at the rate of nearly 0.10 N/Sq.mm per minute.

Each valved section of pipe shall be filled with water slowly and the specified test pressure, based on the elevation of lowest point of the linear section under test and corrected to the elevation of the test gauge, shall be applied by means of a pump connected to the pipe.

All exposed pipes, fittings, valves, hydrants and joints should be carefully examined during the open trench test. When the joints are made with lead all such joints showing visible leaks shall be re-chaulked until tight. When the joints are made with cement and show seepage or slight leakage, such joints shall be cut out and replaced as directed. Any cracked or defective pipes, fittings, valves or hydrants shall be removed and replaced by the sound material and the test shall be repeated until satisfactory to the Engineer- In – Charge.
