

VISAKHAPATNAM PORT AUTHORITY
TRAFFIC DEPARTMENT

ALL TRADE:

No.ITRA/REV/Truck/
Dt.23.08.2022

C I R C U L A R N O - 1 5 0 2

Sub: Irregular parking of Trucks on roads leading to Old Ambedkar Junction area-
Traffic Jam – Reg.

During the inspection conducted by Dy.Chairman, Commandant CISF and Traffic Officials, it is observed that trucks after weighment at Sai weighbridge, at Old Ambedkar junction area again are returning to the loading point to obtain the truck weigh bill which is being provided by the Transporter. It is observed, that in this process, the already weighed trucks are criss-crossly parked on the roads, thereby, generating a cascading affect of heavy Traffic jams at the Old Ambedkar junction area. This traffic jam is affecting the Port Operations as a result of which the outputs are decreasing and performance of the Port is affected severely, besides causing inconvenience to the other Port Users and the general public.

Therefore, in view of the above, all the Trade are hereby requested to give instructions to their transporters to not to park any vehicles after weighment on the said roads and to make use of the truck parking facility already provided, where, issue of weigh bills and other documentation work can be completed without obstructing port operations. Any deviation from the above would be viewed seriously and necessary action as deemed fit including cancellation of Stevedoring license issued by VPA, would be taken on the non-adhering Port Users.
