VISAKHAPATNAM PORT TRUST
ENGINEERING DEPARTMENT

EXPRESSION OF INTEREST

Visakhapatnam Port Trust, a premier Port of the country established 84 years ago, is serving the nation by providing efficient, cost effective Port services to exporters/importers, shipping community and Exim trade.

Visakhapatnam Port Trust has already developed a passenger jetty with following dimensions/ parameters, within the Slipway Complex of Fishing Harbour for the purpose of proving facility to cruise/sea tourism vessels.

| | |
|--------------------------|--------------|
| Length of existing jetty | = 100m |
| Width of existing jetty | = 8.00m |
| Design depth | = 4.00m |
| Back up area | = 3100 sq.m. |

In order to encourage and develop interest in the cruise tourism, VPT decided to allow slipway jetty for cruise/sea tourism vessels of appropriate sizes having appropriate safety measures for embark/disembarkment facility at the above said slipway jetty. The tariff as notified by VPT scale of rates is leviable for the crafts which covers Port dues, pilotage, berth hire charges and other charges as per GRT and as per the services rendered or as the case may be. VPT will also arrange a ticketing counter on the jetty for the purpose of the tourism operators. Pilotage services will be provided as per the availability of Pilots. The minimum distance that the craft shall able to cruise is up to Rishikonda beach and maximum not beyond Bhimili on North and Gangavaram on the South. The operator should have valid class certificate (member of IACS) and all statutory clearances. Necessary permissions may be obtained from MMD/IRS as per Director General of Shipping. The proposed cruise vessels shall not cause hindrance to port operations and dry dock operations at fishing harbour.

| | |
|---------|----------|
| LOA : | upto 70m |
| Beam : | 14.00m |
| Draft : | 3.50m |

If two crafts are berthed, their max, length should not exceed 40m each. Similarly if three crafts are berthed, their max, Length should not exceed 25m each.

Interested cruise operators who are having all necessary permissions as required under various statutes for carrying out Cruise operations (With Passengers) are requested to submit their expression of interest by 16th April 2018 along with the revenue share that they would give to the Port per seat and the maximum permissible carrying capacity of the craft. Interested tour operators may also inspect the facility at slipway complex with prior intimation to VPT (Cell No.9948545487) so that the necessary visit can be organized.
